Public Notice

Implementation of the eTIMS – IFMIS Integration

Kenya Revenue Authority (KRA), in collaboration with the National Treasury, informs the public of the successful implementation of the integration between the Electronic Tax Invoice Management System (eTIMS) and the Integrated Financial Management Information System (IFMIS).

The integration marks a significant milestone in the Government's Digital Transformation Agenda. The integration will promote greater transparency and accountability in Government transactions, support efficient and seamless financial processes across Government entities and enhance tax compliance through automated validation of tax invoices.

All suppliers engaging in business with Government entities are hereby advised to observe the following requirements:

Generation of Valid eTIMS Invoices: Suppliers must generate valid eTIMS invoices for all supplies before submission for payment processing through IFMIS.

Invoice Consistency: The details of invoices submitted to Government entities must correspond precisely with the invoices generated and recorded in eTIMS.

Maintenance of Tax Compliance: Suppliers are encouraged to regularly verify their tax compliance status and ensure that their tax records and information are accurate and up to date.

Support Services: Suppliers requiring assistance with eTIMS on boarding, invoice generation or related matters should contact KRA through the available support channels.

KRA and the National Treasury remain committed to supporting all stakeholders throughout the implementation and transition period. Sensitization programmes, technical support, and relevant guidance will continue to be provided to facilitate the smooth and successful adoption of the integrated eTIMS-IFMIS solution.

For further information and support, please contact the Contact Centre at Tel:020 4 999 999, 0711 099 999, or Email: callcentre@kra.go.ke
